Course Description

The Church “would feel guilty before the Lord” (EN 45) if she did not utilize the new media for evangelization, because for many people they are “the chief means of information and education, of guidance and inspiration” (RM 37). This course will study the ethical challenges in communication technology that are also boundless opportunities for evangelization. We will explore the new role of Parish priests, catechists and teachers in educating the “mobile-born” generations and facing some specific problems as cyberbullying and exhibitionism in social networks. We will also study the possible use of the new technologies in running the parish and celebrating the liturgy. Our analysis will be inspired at Catholic Social Teaching and Franciscan Spirituality.

Some goals:

- Understand the relationship that exists between the use of Information and Communication Technologies [=ICT] and being true to him/herself as a person
- To stimulate the moral imagination
- To develop the ability for critical analysis on the moral values involved in the use of ICT (reflection)
- To acquire the capacity of publicly sustaining a reasonable position while being open to dialogue and pluralism (argument)
- To strengthen the sense of moral responsibility (life)

Student Learning Outcomes

- Students will be expected:
  - To become familiar with the main documents issued by the Catholic Church regarding ICT and the basic truths, values and anthropology they propose.
  - To understand how ICT shape our society and to be aware of the challenges they create for ethics and evangelization.
• To acquire a basic knowledge of the evolution of communication and be able to illuminate the ethical challenges of today with the reflection already made in earlier times.
• To offer constructive responses to ICT dilemmas in the light of the Franciscan Intellectual Tradition.
• To explore the possibilities of using the new ICT for Pastoral care, liturgy, and evangelization.
• To become aware of the current relevance of the Franciscan Spirituality and Charism, being able to apply its values and principles to the use of ICT.

**Required Texts:**

**Recommended:**

**Expectations**

- Before the class
  • The week before, a student will be assigned as leader to start the discussion for each document/commentary with a five-minute presentation.
  • Students will be required to read the texts that will be the focus of discussions in the class.
  • Students will come to class having read all the material assigned and having submitted a half a page written reflection on one of the required readings. Those materials indicated as “other readings (optional)” are recommended, but not required.

- Class Format:
  • Every lesson will have two different sections: the first will focus on one or two ICT document from the Catholic Magisterium; the second will develop a theme in a systematic way.
  • Consistently thoughtful and active participation in class is essential to the success of this course. Attendance is only a precondition for participation, not the measure of it.
- Students are expected to provide well-reasoned contributions to class discussions and be prepared to raise questions in response to the readings.

- Final exam:
  - There will be a final exam that could be preceded by a mid-term.

**Weekly assignments and written reflection**

- You should not attempt to cover everything, but simply make one or two points that clarify some aspect of the reading and stimulate thought.
- You can follow these steps outlined by Richard Gula:
  - A) Identify the subject of the reading (just one brief sentence)
  - B) Critical Reflection:
    2) How does this article/unit affirm your present understanding of the topic. *In this article I relearned that ...*
    3) What new insight(s) did you gain from this article/unit? *I was surprised to learn that ...
    4) What questions does this article raise for you? *I need to think more about ...*
  - C) Appropriation:
    5) Share an anecdote from your life that illustrates your experience with the insights of this article/unit. *I remember when ...
    6) What would it be like to incorporate the insights from this unit to how I think and live? *If I act upon these insights ...

- Students who have a disability requiring accommodation should contact the FST Title IX Coordinator (Garrett Galvin) or Assistant (Donna Foley).
